

Interpretation of Quantum Value:

- Positive Value : Indicates that the product has good effect
- Negative Value : Indicates that the product has side effect

Quantum Value	Stars	It means that the product...
Above +44,000	5	is very effective
Above +42,000	4	has a significant improvement effect
Above +32,000	3	has common medicinal effects and improve treatment
Above +23,000	2	has daily healthcare and functional effect
Above +42,000	1	takes a longer time to perceive the effect and increase health
+1,000 to +9,000	-	no harm to body and it does not have significant health improvement
+10 to +900	-	need to be more cautious and attention as it reaches the critical point for health improvement
